## 1.INTRODUCTION

### **Introduction:**

This document communicates the business requirements and scope for developing Gym Service for a company. The scope of this document is to define the functional and non- functional requirements, business rules and other constraints requirements.

Now a day's online service is the best competitive edge for any organization. Our fitness management website provides best platform for ease of access to the gym managers, trainers and also for customers. User can check his updates online anytime about his/her fitness, diet plan etc. There is a need for online healthcare maintenance online. This project provides user friendly customer and trainer interaction.

### **Problem Statement:**

Existing Gyms works without any website for providing services to their customers. Managers have to keep records on papers and registers. There is no any way for trainers and customers to manage their workout progress. Customers need to visit gym for checking facilities and packages provided by different gyms.

Fitness club-Gym Services is intended to provide complete solution for Gym owner, trainers & customers through a single gateway using internet. It allows owners to manage their gym, customers to view packages provided by gym ,search and choose trainers and get information about gym equipments and purchase the convenient package to get membership. It allows gym trainers to evaluate workout and diet report of gym members. Gym managers can manage their daily gym schedule and send notifications to customers about same. The administrator module will be able to manage branch activity, trainer activity and payments.

### **Aims and Objective:**

This product aimed toward a person who don't want to visit the gym to see functionalities and packages provided by that gym to get membership, he/she can use the web application for ease.

In other words, our Gym Management portal has, following objectives:

- Simple database is maintained.
- Easy operations for the user and the admin of the system.
- User interfaces are user accommodating and attractive; it takes very less time for the operator to use the system.
- This system will provide complete solution for Gym owners to take their business online.

## **2. OVERALL DESCRIPTION**

### **Proposed Methodology:**

This system brings ease in the communication and business of B2C field. It provides the complete functionality to owner This system allows gym managers to manage users and full application, manage gym shifts and the members to search gyms, apply for membership and view workouts while it allows trainer to create schedule, diet chart.

This product aimed toward a person who don't want to visit the gym to see functionalities and packages provided by that gym to get membership, he/she can use the web application for ease.

Fitness Management Website provides better users health and diet plan and workout plan maintaining their health care and taking care of all their health information.

Our System provides a very user-friendly platform where Member can easily search the gym trainer and check his updates online anytime about his/her fitness, diet plan etc.

Our system is aimed efficient management of various tasks like Generating diet and workout plan for members on weekly basis, managing fees payment. Digitally monitor daily activities along with managing all the resources and information on a single platform.

## **OPERATING ENVIRONMENT:**

### **Server Side:**

**Processor:** Intel® Xeon® processor 3500 series

**HDD:** Minimum 500GB Disk Space

**RAM:** Minimum 4GB

**OS:** Windows 10

**Database:** MySQL

### **Client Side (minimum requirement):**

**Processor:** Intel Dual Core

**HDD:** Minimum 80GB Disk Space

**RAM:** Minimum 4GB

**OS:** Windows 7 or above

### **Design and Implementation Constraints:**

- The application will use ReactJS, Axios and CSS as main web technologies.
- HTTP protocol is used as communication protocol. FTP is used to upload the web application in live domain and the client can access it via HTTP protocol.
- SMTP protocol is used for Email communication
- Several types of validations make this web application a secured one and SQL Injections can also be prevented.
- Since Fitness Club is a web-based application, internet connection must be established.

### **3. REQUIREMENTS SPECIFICATION.**

#### **External Interface Requirements:**

##### User Interfaces:

- All the users will see the same page when they enter in this website. This page asks the users a username and a password.
- After being authenticated by correct username and password, user will be redirect to their corresponding profile where they can do various activities.
- The user interface will be simple and consistence, using terminology commonly understood by intended users of the system. The system will have simple interface, consistence with standard interface, to eliminate need for user training of infrequent users.

##### Hardware Interfaces:

- No extra hardware interfaces are needed.
- The system will use the standard hardware and data communication resources.

This includes, but not limited to, general network connection at the server/hosting site, network server and network management tools.

##### Application Interfaces:

##### **Web Browser:**

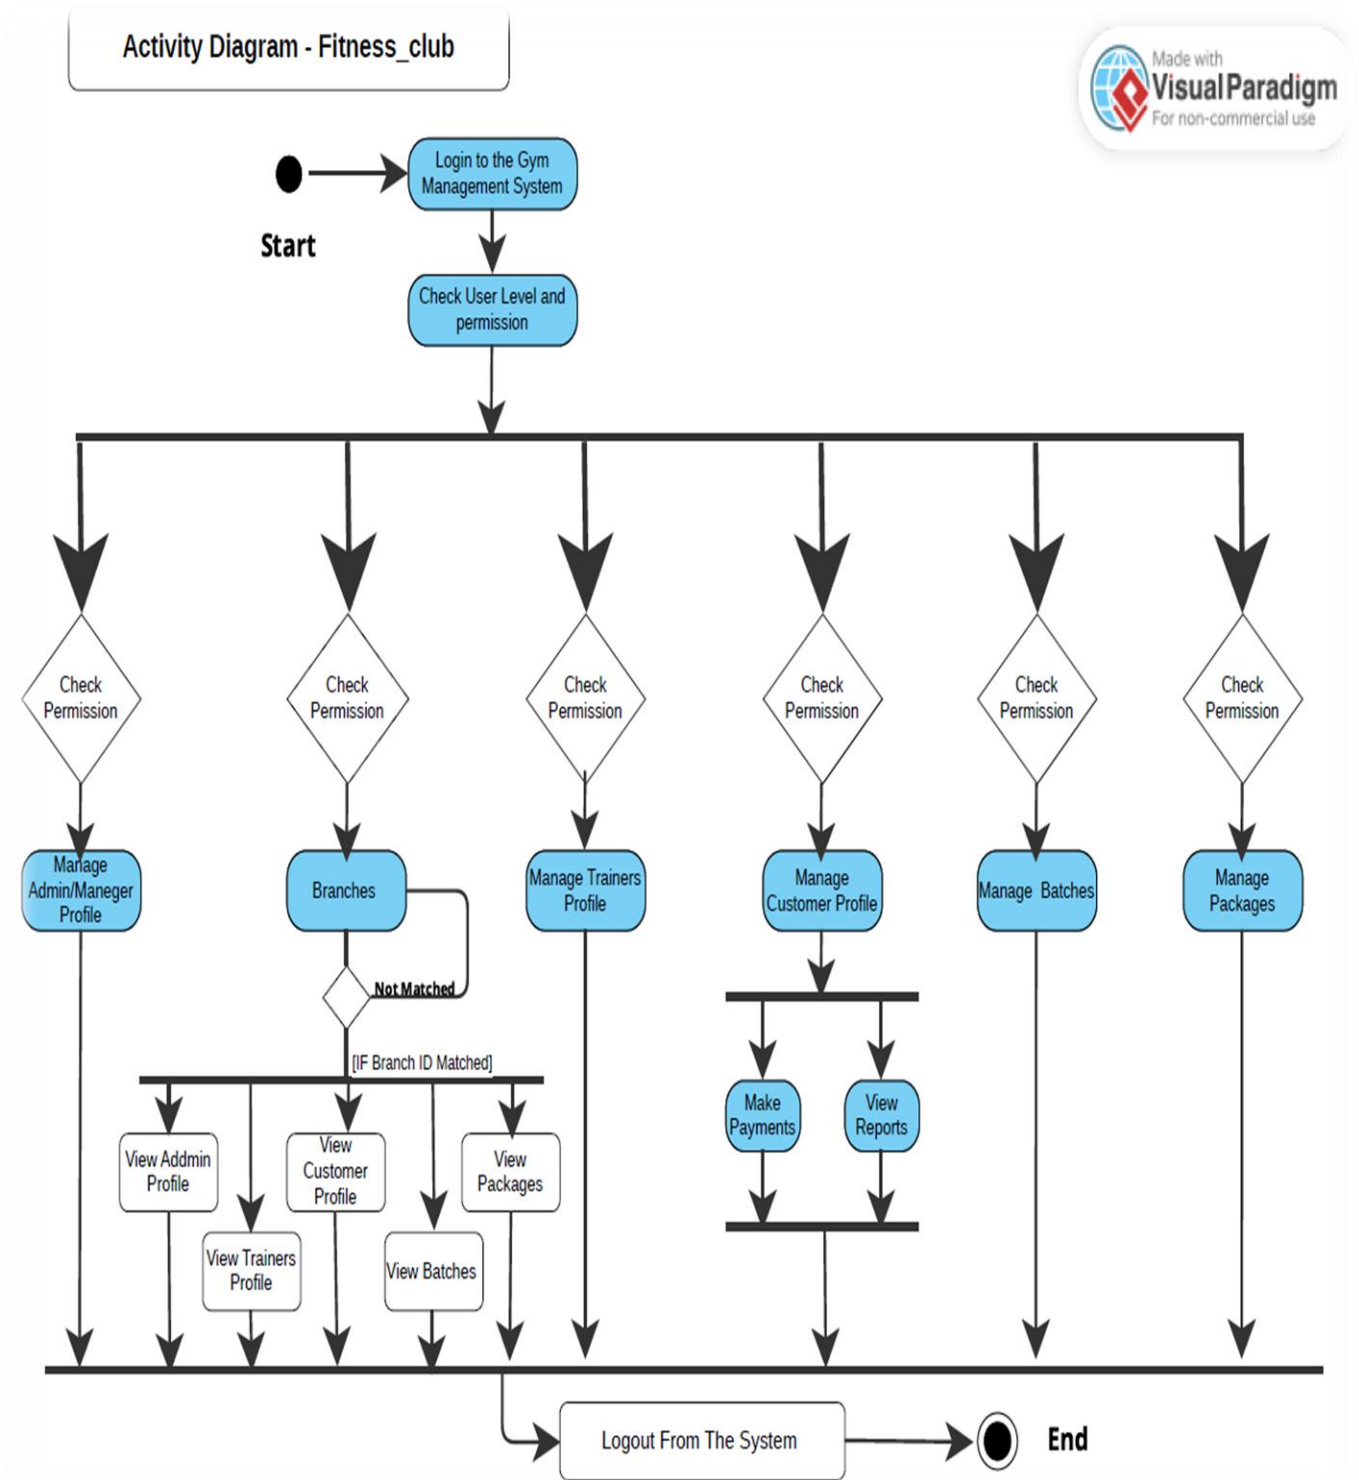

The system is a web-based application; clients need a modern web browser such as Mozilla Firebox, Internet Explorer, Opera, and Chrome. The computer must have an Internet connection in order to be able to access the system.

##### Communications Interfaces:

- This system uses communication resources which includes but not limited to, HTTP protocol for communication with the web browser and web server and TCP/IP network protocol with HTTP protocol.
- This application will communicate with the database that holds all the booking information. Users can contact with server side through HTTP protocol by means of a function that is called HTTP Service. This function allows the application to use the data retrieved by server to fulfil the request fired by the us.

## TRAINER ADD PAGE

The screenshot shows a web application interface for adding a trainer. The header is black with the 'FitnessClub' logo in yellow on the left and a 'LOG OUT' button in red on the right. The main content area has a dark grey background. On the left, there is a vertical list of labels: First Name, Email, Password, DOB, Address, Contact Number, Branch Id, and Role. To the right of these labels are corresponding input fields: a text box for First Name, a text box for Last Name, a text box for Email, a text box for Password, a date picker for DOB, a text box for Address, a text box for Contact Number, a text box for Branch Id, and a dropdown menu for Role with 'TRAINER' selected. At the bottom of the form are two blue buttons: 'Register' and 'Back'.

## GYM SHIFT PAGE

The screenshot shows a web application interface for adding a gym shift. The header is black with the 'FitnessClub' logo in yellow on the left and a 'LOG OUT' button in red on the right. The main content area has a dark grey background. On the left, there is a vertical list of labels: Branch Id, Batch Time, and Batch Type. To the right of these labels are corresponding input fields: a text box for Branch Id, a date and time picker for Batch Time, and a radio button group for Batch Type with options: YOGA, ZUMBA, AEROBICS, CROSSFIT, and WEIGHT TRAINING. At the bottom of the form are two blue buttons: 'Add Batch' and 'Back'.

## ADD NEW PACKAGE

The screenshot shows a web application interface for adding a new package. The header is black with the 'FitnessClub' logo in yellow on the left and a red 'LOG OUT' button on the right. The main content area has a dark gray background. On the left, there is a vertical list of labels: 'Package Name', 'Price', and 'Description'. To the right of these labels are three white input fields. The first field is labeled 'Package Name', the second 'Price', and the third 'description'. Below the input fields is a small blue button labeled 'Add'.

## PURCHASE MEMBERSHIP

The screenshot shows a web application interface for purchasing a membership. The header is black with the 'FitnessClub' logo in yellow on the left and a red 'LOG OUT' button on the right. The main content area has a dark gray background. In the center, there are three white dropdown menus. The first is labeled 'Branch:' and has the text 'Select Your Nearest Gym' with a downward arrow. The second is labeled 'Trainer' and has the text 'Select Trainer' with a downward arrow. The third is labeled 'Select Package' and has the text 'Select Package' with a downward arrow. Below the dropdown menus is a small blue button labeled 'Pay Amount'.

## ABOUT US

### Nutrition

Getting in the best shape needs a lot more than just working out. It is believed that 70% of what you eat decides your health and looks. Let's meet our team of **Nutritionists**

#### Yuvraj Bhavnagar

MS Nutrition and Food Science from University of California-Berkeley  
Experience: 5 yrs

Yuvraj Bhavnagar has a MS Nutrition and Food Science from University of California-Berkeley degree and an assorted experience in the fitness industry for 5 years. He is highly skilled and motivating when it comes to being a personal trainer.

#### Rujuta Diwekar

PhD in Applied Nutrition from Cornell University  
Experience: 7 yrs

Rujuta Diwekar has a PhD in Applied Nutrition from Cornell University degree and an assorted experience in the fitness industry for 7 years. She is highly skilled and motivating when it comes to being a personal trainer.

### Trainers

With the best trainers across the country in our team, we guarantee you a better health and physique. With scientific approach towards working out our team of expert trainers are here to optimize your training. Let's meet our team of **Fitness Trainers**

#### Manish Advilkar

Personal Trainer (ACE-CPT)

Experience: 6 yrs

Manish Advilkar has a Personal Trainer (ACE-CPT) degree and an assorted experience in the fitness industry for 6 years. He is highly skilled and motivating when it comes to being a personal trainer.

#### Anupriya Kapur

Personal Trainer (ACE-CPT)

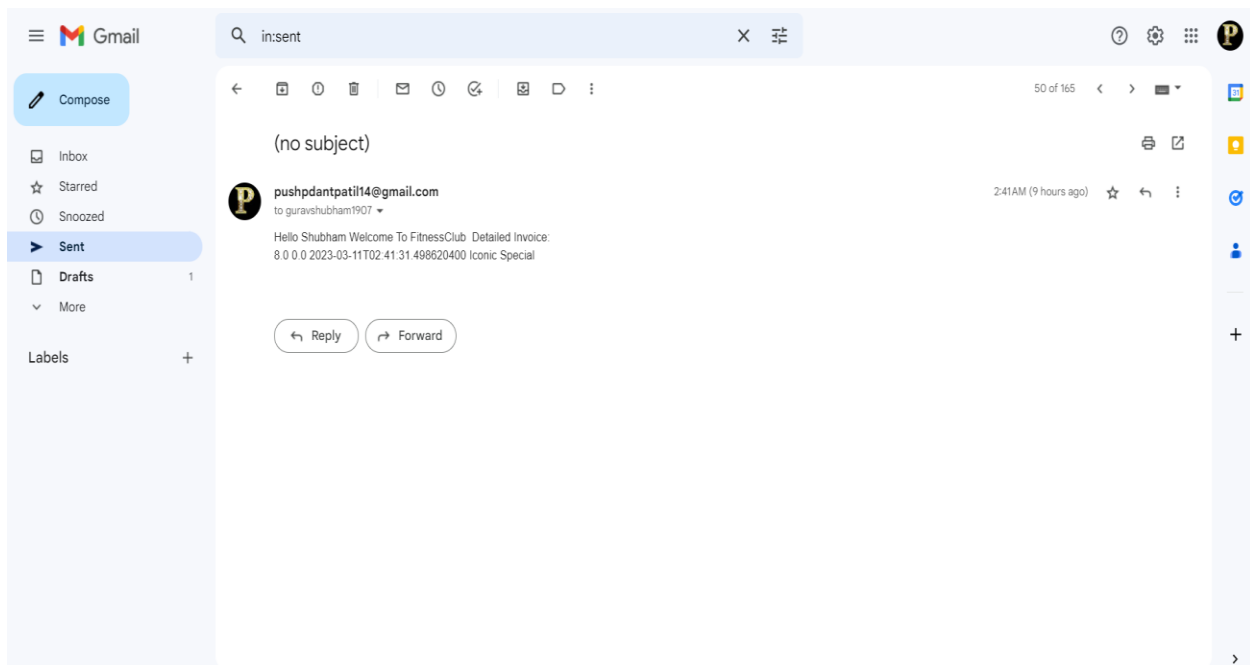

Experience: 4 yrs

Anupriya Kapur has a Personal Trainer (ACE-CPT) degree and an assorted experience in the fitness industry for 4 years. She is highly skilled and motivating when it comes to being a personal trainer.

## **7. CONCLUSION**

This system brings ease in the communication and business of B2C field. It provides the complete functionality to owner This system allows admin to manage users and full application, manage gym shifts and the members to search gyms, apply for membership and view workouts while it allows trainer to create schedule, diet chart and add workout plans.

This system provides opportunity to Gym owners to expand their business online. Saves time and efforts of customers to right gym and reduces overall paper work of managing records and registers. Customers and Trainers can receive notifications via email.

- **Future Scope:**

This project can be enhanced further by adding payment gateway to reduce the maintenance of cash for Membership purchase payments. Online Workout tutorials and online Expert sessions can be hosted on this site for better customer satisfaction. The software is flexible enough to be modified and implemented as per future requirements. We have tried our best to present this free and user-friendly website to Institutes.
